For Scope 1 and 2 GHG Emissions Reduction

The Group set medium- to long-term GHG emissions reduction targets in October 2018.

We aim to reduce Scope 1*¹ and Scope 2*² GHG emissions by 40% by 2030 compared to fiscal year 2017, which is defined as the base year, and achieve zero emissions by 2050.

*1 Scope 1: Direct GHG emissions from fuel consumption of the facilities owned and managed by the company such as stores and offices
 *2 Scope 2: Indirect GHG emissions from the generation of energy purchased from other companies such as electricity and gas

Current Status of the Group

Current status of the Group's GHG emissions (Scope 1 and 2)

The Group is a business group with retailers including Daimaru Matsuzakaya Department Stores and Parco at its core and approximately 90% of the Group's GHG emissions are from stores. And approximately 90% of GHG emissions from stores are from electricity consumption.
